Building Area: 52,000 sq. ft.
Square Foot Cost: \$428
Construction Cost: \$22,183,599
Project Cost: \$34,241,845
Completion Date: January 2014

PHOTOGRAPHY: LARA SWIMMER PHOTOGRAPHY

The new Aquatic Center provides the Snohomish School District with a facility for its students to train and participate in a competitive swim program, as well as an environment to engage with the city and its community. The 52,000-sf building contains two separate natatoriums that are

linked together through a window wall, creating a transparent connection between the two spaces.

This connectivity also extends to the environment beyond the center, with extensive perimeter clerestory windows, view glazing and large skylights that provide widespread daylighting. The facility features saline water recreational and competition pools, a water slide, therapy spa and surf simulator. The space includes district administrative offices, locker rooms, a concession/café area, reception and community meeting and event spaces.
